

FOR IMMEDIATE RELEASE:

November 9, 2009

**AUSTRALIAN AFFILIATE ANNOUNCES DRILLING PROGRAM AND
COMPLETION OF INDEPENDENT TECHNICAL REPORT**

Tri Origin Exploration Ltd. (TOE: TSX.V) is pleased to announce that its affiliate company Tri Origin Minerals Ltd. ("TRO") will shortly commence an exploration drilling program (the "Woodlawn Exploration Program") targeting the potential to increase the Mineral Resource inventory at its tenement that hosts the site of the former Woodlawn Zinc-Copper Mine located south west of Sydney, New South Wales, Australia. A NI 43-101 compliant independent Technical Report on this exploration program has been completed by independent geological consultancy GeoRes. The Report strongly confirms TRO's assessment that the potential is high for increasing the Mineral Resource inventory at Woodlawn by undertaking the above mentioned exploration program.

The Woodlawn Exploration Program aims to identify further mineralization from which additional high grade Mineral Resources can be delineated. Negotiations are well advanced on securing the services of an experienced drilling contractor and work on the Woodlawn site is expected to commence in the latter part of November 2009. The initial drilling program involves up to 3500 metres of diamond and reverse circulation drilling directly targeting interpreted extensions of existing lenses and will also test parts of the prospective trend of host units in the near mine environment. These targets have been determined using information from the original geological models created during the Mineral Resource estimation work as a basis to incorporate more recent geological model interpretations. Additional work is also planned in relation to ongoing 3D modeling north and south of the Woodlawn deposit.

For more information, please visit the Company's website at www.triorigin.com. The independent Technical Report on the Woodlawn Exploration Program will be available on SEDAR at www.sedar.com. For clarification of this announcement or for further information, please visit TRO's website at www.trioriginminerals.com.au or the Australian Securities Exchange website at www.asx.com.au (use TRO as the search criteria).
